The Halloween Party sponsored by the Evergreen Ruritan Club was quite a success and the club would like to thank everyone who cooperated in this event.

RECIPE OF THE WEEK
Beef 'N Bean Roll-ups

2 cups all purpose flour*
2 teaspoons baking powder
½ teaspoon salt
¼ cup butter or margarine
½ cup milk
¼ cup molasses
Meat Mixture
1 to 2 ground beef
3½ cups (two 1-lb. cans) pork & beans
2 to 4 tablespoons instant minced onion or ½ to 1 cup finely chopped onions.

½ cup molasses
¼ cup catsup
Oven 400°

Prepare Meat Mixture; set aside. (no need to sift flour; measure by lightly spooning into cup and leveling off.) In large mixing bowl, combine flour with baking powder and salt. Cut in butter until crumbly. Add milk and molasses; stir just until dough clings together. On lightly floured surface, knead dough 5 or 6 times. Roll out to 12 x 9 inch rectangle. Spread ⅓ cup warm Meat Mixture over dough. Starting with longer side, roll up; cut into twelve 1-inch slices. Pour remaining hot Meat Mixture into 12 x 8 or 13 x 9 inch (shallow 2 or 3 quart) baking dish. Place biscuit slices on hot mixture in baking dish forming 3 rows of 4 biscuits each. (to assure doneness, place biscuits on hot Meat Mixture.) Bake at 400° for 20 to 25 minutes until biscuits are browned and bean mixture is bubbly. Serve hot.

Meat Mixture: In large fry pan, brown ground beef; drain. Add beans, onion, molasses and catsup; mix well. bring mixture to a boil; remove from heat and cover to keep warm.

Tip: Reheat, covered with foil, at 375° for 15 to 20 minutes until bubbly.

*For use, with Self-Rising Flour, omit baking powder and salt.

Many people are not sure when it is appropiate to light candles. There are very few hard-and-fast rules, but the following are a few hints:

1. Usually candles are not used burning on a luncheon table, but it is permissible when they are needed for light on a dark day. Never draw draperies to darken the room for lighted candles.

2. Lighted candles are fine on a tea table, provided the tea starts after two thirty in the afternoon.

3. Always light candles at an evening meal or reception.

4. On special occasions such as Christmas and Thanksgiving, when candles are a part of the decoration, they can be lighted regardless of the time of day.

5. Lighted candles are always correct at any function for a bride, again regardless of the time of day.

The most common use of lighted candles is on a dinner table, and here are a few hints about that:

1. Avoid candle flame at eye level.

Candles used outdoors should have some protection from the wind.

3. The heights of stemware, candles, and flowers should be different to avoid monotony.

4. Candelabra can be used to contain flowers as well as candles to conserve space on table.

5. When selecting candles for table, texture, size, and color should be considered. Use candles of one color, not a variety of colors.

6. If candles are refrigerated for a few hours they will burn more slowly.

...third highest on record.

The Dark-fire cured tobacco market opens December 3 and the air cured market on December 10.

Last Thursday we had one of the largest Feeder Pig Sales at Farmville. 2360 pigs sold.

If you have pigs to sell through this sale, it's always the 1st Thursday of the month. Pigs must be consigned - forms available from this office. Pigs must be free of lice, wormed, male pigs castrated and they must be inspected on the farm.

Ask any farmer and he'll tell you it cost more to farm in 1974. From 1966 to 1973 current expenses rose 71% compared with an increase of 69% for fixed expenses. Virginia farm expenditures between 1972 and 1973 rose much more rapidly than in any previous year. Feed, for example jumped 56% in just one year.

What everyone is afraid to say to tobacco farmers.

"It's been a rough year."
It's as simple as that. Costs are soaring and profits are barely getting off the ground.
At Fidelity National Bank we know enough about farming to realize what kind of a year it's been. And what that's done to your profit margins.
But we also know that no matter how little there is left over from this year's sales, you've got to save as much of it as possible to get you through to next year's. And pay for seed, fertilizer, labor and equipment along the way.
Because we understand this fact—that your financial needs are not like everyone else's—we also understand that not every savings plan is right for you.
And we're ready to show you one that is—with continuous compounding of interest so your money can grow as quickly as you need it to. And full freedom of withdrawal so you can get it when you need it, too.
Fidelity National Bank.
When we say we're out to help you grow, we mean it.
